Scalping Trading : 9 & 15 EMA Strategy (2025)

Description

9 & 15 ema strategy is a scalping method to quickly enter into a trade and exit. This strategy requires fast execution of trade with small stop loss and big target like 1:2 or 1:3. The accuracy of this scalping method varies from 80% to 90% depending upon the situation. In this article, i will show you how to use 9 & 15 EMA strategy.

Table of contents

What is Scalping?

Scalping is a trading strategy that involves making numerous trades throughout the day to capitalize on small price movements. The primary objective of scalping is to accumulate small, incremental profits that can add up over time.

EMA Setting

The EMA strategy works only in **trending market**. You should avoid to use this scalping method in **sideways and choppy market**.
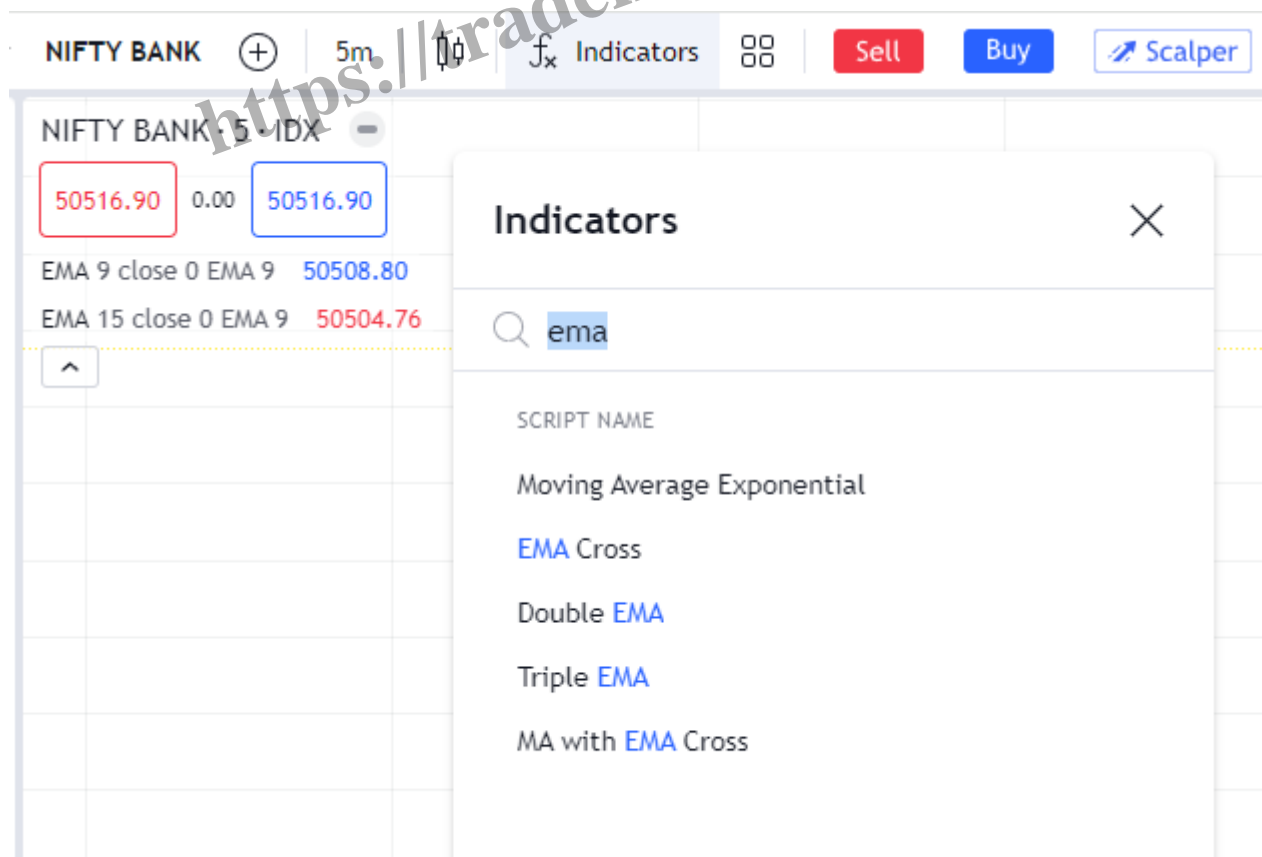

1. Open your trading account chart and search for indicator "**Moving Average Exponential**".
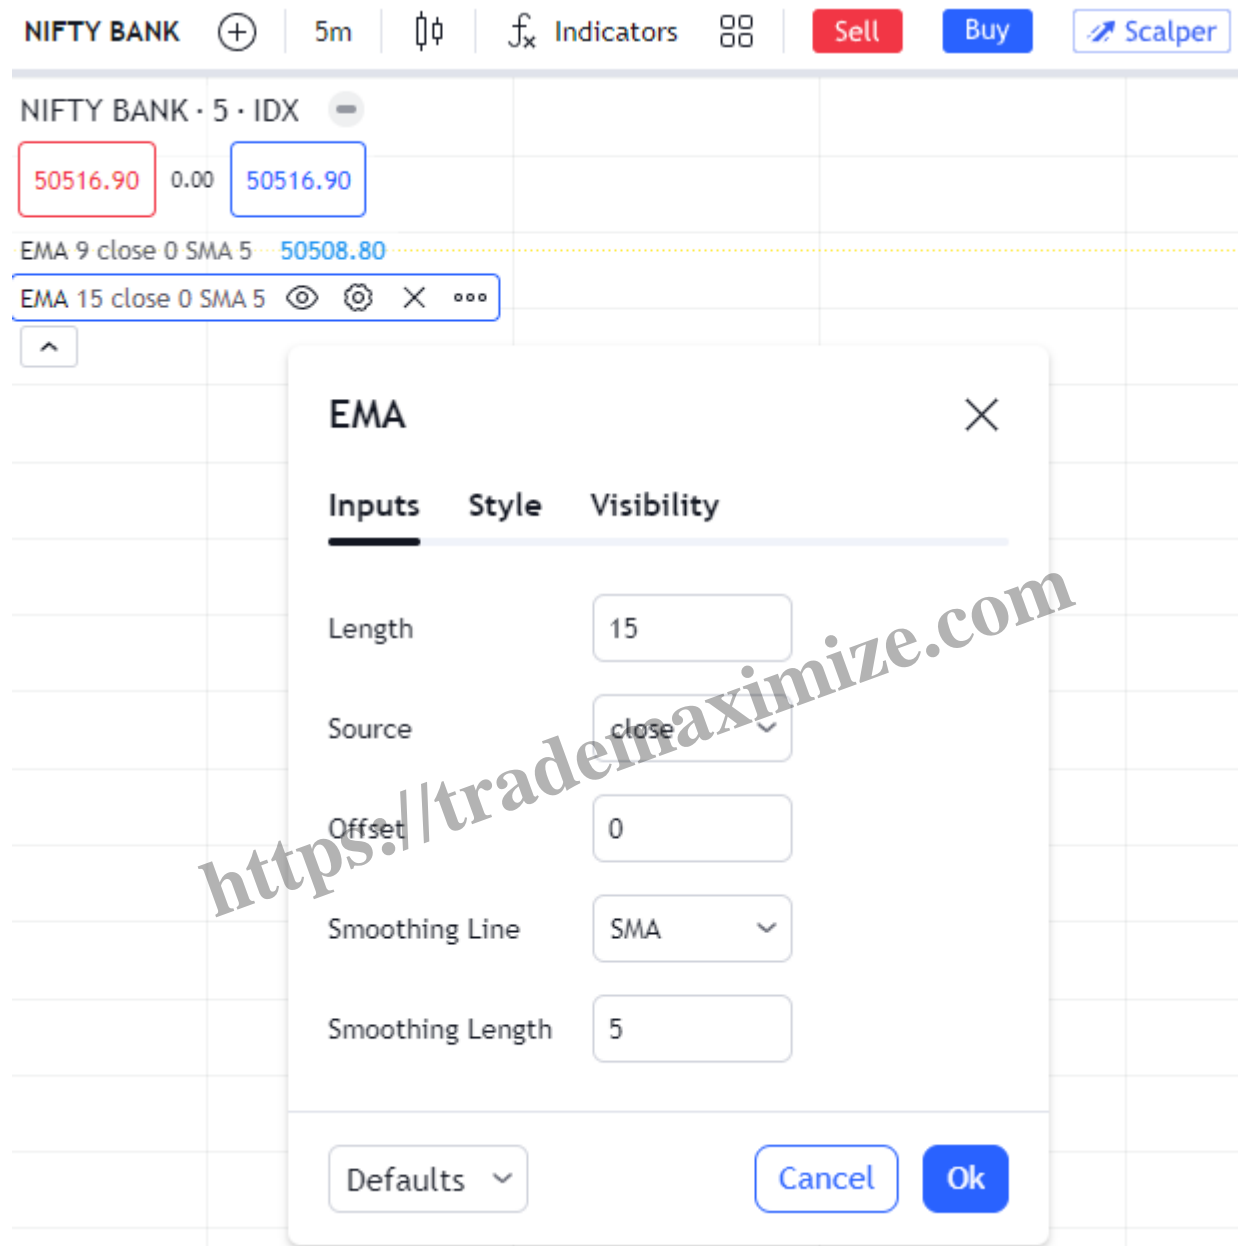

Open Trading A/c

2. Double tap on "Moving Average Exponential" to add two EMA.

3. Now click on lower EMA settings, change EMA value from 9 to 15 and also change the color in style tab to differentiate between 9 & 15 EMA.

Scalping Trading : 9 & 15 EMA Strategy

1. Never trade, if EMA lines are sideways or flat. It will hit your stop loss each time.

2. Open 4 split screens on your desktop / laptop and open Bank Nifty, Nifty 50 in 5 minute time frame.

3. Also open Bank Nifty and In the money (ITM) option in 1 minute time frame (see the below chart).

4. You should remember that the EMA lines making an angle of more than 30 degree. If **9 ema crossing the 15 ema line**, go for in the money(ITM) **call option** and vice versa.

## Cup and Handle Pattern: A Proven Strategy for Bullish Markets

5. Place a candle low stop loss, either it will hit your small stop loss or gives you **30 to 50** points in single trade.

6. Candles for entry : Pin bar candle, full body candle and big bar on EMA with candle low stop loss.

7. **Maximum trade in a day should be 5** otherwise it will lead to overtrading and disturb your psychology.

8. You should enter in a trade with **1 minute time frame** and also see the **option price** simultaneously.

9. Make sure that Bank Nifty and Nifty 50 moves in the same direction.

10. This 1 minute scalping strategy works for **crypto trading, forex trading, futures and options trading** etc.

Let's know whether the scalping strategy : 9 & 15 ema strategy works for you or it will hitting your stop loss.
